SUMMARY

Strong problem-solving skills and advanced programming capabilities have led to significant improvements in functionality and user experience on team projects. Dedicated to ongoing professional development and staying current with emerging technology trends.

SKILLS

- Data analysis
- Software development
- Version control
- User interface design
- Project management
- Team collaboration

EXPERIENCE

06/2025 – Ongoing

Co-Team Lead Product Engineer
KadaKareer

- Co-led the development of a web-based product, managing phased feature releases from planning to deployment.
- Integrated application forms into the platform, improving data flow and accuracy between third-party form tools and the database.
- Streamlined onboarding workflows by enhancing user redirects and refining access permissions for key features.

04/2025 – 06/2025

Lead Developer
Direcho Trabaho Training Program – Virtual

- Directed collaboration of 4 developers to create React.js application
- Optimized UI/UX via modern component design techniques.
- Managed GitHub version control, resolving 95% of critical merge conflicts efficiently.
- Presented final project to stakeholders, showcasing technical architecture and team efforts.

01/2025 –02/2025

AI Data Insight Analyst Intern
Excelerate – Virtual

- Processed over 10,000 student engagement records using Python, reducing data anomalies by 40%.
- Developed interactive Tableau dashboards to highlight key learning success patterns.
- Proposed three engagement strategies adopted for institutional learning enhancement initiatives.
- Collaborated with other teams to develop analytics solutions that provide value-added insights.

09/2024 –06/2025

Auditor
Association of Computer Science Enthusiasts – Dr. Yanga's Colleges, Inc

- Oversaw and documented financial records and logistics for organization-led activities, ensuring transparency and accountability.
- Collaborated with fellow officers in planning and executing department-wide events, seminars, and technical workshops.
- Actively engaged in managing student affairs, addressing concerns, and enhancing academic and extracurricular engagement.

- Coordinated with faculty and student leaders to support IT-related initiatives that promote student development and collaboration.

EDUCATION AND TRAINING

Expected in 06/2026   **Bachelor of Science in Information Technology**
Dr. Yanga's Colleges, Inc. – Binang 2nd, Bocaue, Bulacan
- Dean's Lister
- Officer of the Association of Computer Enthusiast Students

CERTIFICATIONS

- Web Development with React.js | Direcho Trabaho – The Coding School | June 2025
- Back-End Web Development | Bayan Academy | January 2025
- Front-End Web Development 101 | Bayan Academy | September 2024
- Microsoft Office Specialist – Excel 2019 | Microsoft | June 2023
- Java Programming | Oracle | May 2023
- Learning Java | LinkedIn Learning | September 2022
- Learning Git and GitHub | LinkedIn Learning | November 2022

TRAININGS & SEMINARS

- FlutterFlow Training Program | September 2025
- International Research Conference on IT | PSITE-CL | March 2024
- Regional Assembly of IT Educators (RAITE) | PSITE-CL | November 2024
- Intensive Speech Training Workshop | DYCI Headstart | October 2024
